

## Publication and Supporting Services Unit (PSSU)

**Publication and Supporting Services Unit (PSSU)** is compiling and publishing the information related to reclamation and management of salt affected soils in the form of Annual Report, Salinity News, Technical Reports, Books, Bulletins, Folders and Training Manuals *etc.* and making them available to the different stakeholders for free. With the advent of digital information systems, the scope has expanded to include electronic publishing on the Institute Website. The PSSU services are threefold: (1) Information services (2) Publication services (3) Support services like organizing the seminar, conferences, meetings, annual day function, Kisan Mela/Ghosthi *etc.* Also PSSU helps in creating institutional repositories to support the archiving and distribution of a wide range of research materials produced by faculty in the Institute.
