

‘Swachhta Abhiyan 2022’

ICAR-CSSRI, Karnal

Date: 20-12-2022

As per the assigned activity of awareness on kitchen waste management, some villagers and women of near by village viz. Saidpura, Pundrak, Kachhwa and CSSRI staff were given awareness about the kitchen waste management and composting. They were apprised about the environmental problems arising due to desegregated kitchen and household waste disposal. They were advised for separate collection of green (kitchen) and dry waste (un-decomposable) separately. The green waste can be converted into compost at house level. The compost making process with kitchen waste described in details. They were also given knowledge on composting and vermicomposting techniques from house hold, animal shed and farm waste.
