

Four Animal Health Camps Organized under SCSP by ICAR-CSSRI, Karnal

ICAR–Central Soil Salinity Research Institute (CSSRI), Karnal, organized a series of four Animal Health Camps under the Scheduled Caste Sub Plan (SCSP) in collaboration with the Government Veterinary Hospital (GVH), Karnal, and the respective Government Veterinary Hospitals of the villages under the Department of Animal Husbandry, Karnal.

The first Animal Health Camp was organized at Sultanpur on 03 September 2026, followed by the second camp at Mohari Jagir on 10 September 2026, the third camp on 16 September 2026 at Nasirpur, and the fourth camp was held at Mohiddinpur on 22 September 2026. During the four camps, veterinary experts examined livestock belonging to the participating farmers and provided necessary veterinary advice and health-care support. A total of 182 SC farmers participated in the camps, and their animals were examined by veterinary professionals. As part of the programme, growth promoters and veterinary medicines were distributed to the farmers. Vegetable seed kits were also distributed to selected SC farmers to support diversification of agricultural activities and enhance livelihood opportunities.

The programme was organized under the guidance of Dr. S.K. Sanwal, Director, ICAR-CSSRI, Karnal, with coordination by Dr. B.L. Meena, Nodal Officer, SCSP. Dr. Priyanka Chandra, Dr. Neela Madhav Patnaik and Shri Devendra Kumar also extended their support in organizing and implementing the programme. The veterinary teams of the Government Veterinary Hospital, Karnal, and the respective village veterinary hospitals provided technical support. The initiative aimed to improve livestock health, promote scientific animal husbandry practices and provide essential veterinary and agricultural inputs to SC farmers in the adopted villages. The camps witnessed active participation from the farming community and strengthened the extension outreach of ICAR-CSSRI, Karnal under SCSP.
